Centerfire™ Series Consumables

are easy-to-use and high performing. Developed with the user's cost consideration in mind, Centerfire Series Consumables provide better arc starts, less spatter and more consistent welds, while lasting up to three times longer than most brands.

Threaded nozzle keeps contact tip centered for better weld placement and less spatter. Holds tips fixed at 1/4" or 1/8" recess, flush, or 1/8" stick out.

Composite insulator extends life and withstands heat abuse.

Centerfire Nozzles have a built-in spatter shield that smooths and concentrates gas glow for less weld oxidation and contamination.

Centerfire Contact Tips have a tapered base to improve conductivity.

Diffuser mates securely with contact tip for better conductivity.

Rotate to create new wear surfaces and extend tip life

No tools needed to change nozzles and contact tips

Better arc starts, less spatter, more consistent welds

Centerfire HD Consumables

are designed for shipbuilding, trailer fabrication and other heavy manufacturing operations. These heavy-duty nozzles feature an easily removable and replaceable nozzle cone (the most frequently damaged part of the nozzle), thicker walls and a new, high temperature insulator.

Centerfire™ HD Gas Diffusers and Nozzles

Available Parts

Details

- Couple the Centerfire HD Nozzle Body (**N-HDC**) with a Centerfire HD Nozzle Cone to form a complete Centerfire HD Nozzle.
- One nozzle body and one nozzle cone required, order separately.
- Use Centerfire HD Nozzles with standard Centerfire **4423R** Insulator Caps, **D-1** Gas Diffusers and **'T'** Series Contact Tips.

Centerfire HD Consumable Series Installation

1. Install insulator over neck.
2. Trim liner as per the directions below.
3. Torque diffuser onto neck to approx. 12ft-lbs.
4. Insert contact tip into diffuser.
5. Thread nozzle body onto diffuser / contact tip and tighten firmly by hand.
6. Thread nozzle cone onto nozzle body and tighten firmly by hand.

Diffusers, nozzle cones and bodies and contact tips are available in packages of 10 and insulators are available in packages of 5

Standard Installation

1. Install insulator over neck.
2. Trim liner as per the directions below.
3. Torque diffuser onto neck to approx. 12ft-lbs.
4. Insert contact tip into diffuser.
5. Thread nozzle onto diffuser / contact tip and tighten firmly by hand.

Available in packages of 10 contacts tips.

Liner Trim Guidelines

To know the optimal length to trim your liner simply find your diffuser part number from the list below and trim to the corresponding length.

- | | |
|-----------------------------|--------------------------------|
| D-1 9/16" (14.3 mm) | D-1T 13/16" (20.6 mm) |
| DS-1 9/16" (14.3 mm) | D-1T-5 13/16" (20.6 mm) |
| DW-1 1/4" (6.4 mm) | DS-1T 5/8" (15.9 mm) |

Centerfire™ Conversion Series

Simplify parts management and improve performance by converting all of your MIG guns to Centerfire Contact Tips, Nozzles and Diffusers. Find your MIG gun make and model on the left, then follow the chart to the right for parts needed to upgrade.

Conversion Installation

1. Install conversion adapter (if required).
2. Install insulator cap over conversion adapter.
3. Proceed with Standard or Centerfire HD Series installation.
