INSIDE/OUTSIDE ADJUSTABLE MAGNETS

Hold stock from the outside, leaving clearance for inside welds or hold stock from the inside for outside welds.

Hold and position sheet metal, round pipes, square, angled or flat stock. Constructed from two independent rectangular magnets for consistent, undiminished magnetic force when both sides are attached to work pieces. Use mounting holes to link two magnets together for use as fixtures. Use hex hole on magnet for breakaway leverage.

NEW!

H2OX - SEMI SYNTHETIC METALWORKING FLUID

Formulated to provide excellent lubricity while eliminating the sticky messy film associated with heavy oil products.

Designed for tool-dulling jobs like grinding, sawing, milling, boring, and reaming hard metals, Tap Magic H2OX™ can be used with any water-based metal cutting system to provide the following benefits:

- Extended Tool Life (coated or uncoated tooling)
- Long Sump Life (low bacterial growth)
- Low Skin Irritation Formulation
- Resistant to Residue or Film Build Up
- Corrosion Resistant
- Low Foam Characteristics

PRO-LINE HIGH PERFORMANCE MARKERS

PRO-LINE® HP is a liquid paint marker developed for superior marking performance on oily and greasy surfaces. The high performance paint penetrates through oils and greases to dry quickly and leave a bold, permanent mark that is wear, weather and fade-resistant.

- High performance paint penetrates through oils and greases to dry quickly and leave a bold, permanent mark.
- Unique paint formula resists spreading and dries quickly through oily surfaces to leave precise, permanent marks.
- Marking range: -46°C to 66°C.
