

## Welding jacket

A fire-protected jacket for welding work and allied processes

### Sizes:

for men S – 5XL

for women XS – XL

See the size table on page 5.

A stylish black and orange coloured welding jacket, made of strong, fire-resistant material that gives good protection against sparks and molten metal spatter.

Plenty of well-protected pockets, an extra pocket with a window for an identity card, tightening straps in the cuffs and hemline for better fit.

Certified according to EN ISO 11611 standard for protective clothing for use in welding and allied processes.

Two large front pockets with protective flaps.

Beside the left front pocket there is an extra pocket with a zipper for easy access.

A windowed pocket is located on the right side for accommodating an identity card.

Accommodation for pens and pen-like tools inside the left lap.

Side pockets are equipped with a zipper.

Embroidered name tag with a Velcro strip can be ordered.
